

Digital Citizen Reflection

One habit. Evidence. A realistic change.

Choose your own observation or a fictional example. Keep private details out.

Topic: Attention / Social media & privacy / News / AI-assisted tools

1 Observe

What do you do? When or where? What do you notice afterward?

2 Evaluate

Compare relevant evidence: source, date, population or audience, and limits.

What does it support? What would you still need to check?

3 Identify

Risk I want to address:

Benefit I want to keep:

4 Act

One change I will try:

How I will check progress:

Review date: _____ Start with seven days from today.

Keep the benefit. Try the change. Review what actually happened.

For a fictional news example: find a dated original announcement before sharing.

Online activity and original sources:
